An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leslie Mooi on December 1, 2009.

The application has been amended as follows:

Claim 92, line 1: after the term "tissue," the terminology --- in which an increase in telomerase activity is desired, --- has been inserted.

In the specification, on a separate page, the following the Abstract has been entered:

--- ABSTRACT

The present invention relates to methods for increasing telomerase activity in cells. Such compositions include pharmaceutical, including topical, and nutraceutical formulations. The method and compositions are useful for treating diseases subject to treatment by an increase in telomerase activity in cells or tissue of a patient, such as, for example, HIV infection, various degenerative diseases, and acute or chronic skin ailments. They are also useful for enhancing replicative capacity of cells in culture, as in ex vivo cell therapy and proliferation of stem cells. ----
